

Variable Group: Citizenship, Nationality and Religion

Variable Sub-Group: Year of naturalization

Canadian Century Research Infrastructure Project

This code set was constructed using the expected responses from the Enumerator Guides and the Dominion Bureau of Statistics (DBS) code books, and by consulting the microdata for imputed values DBS did not expect or did not distinguish. Any imputed value that was a sensible response was given a code.

This code has one or two digits. It is a standard sequence. There are no parent codes.
