Column 6: House Owned or Rented Field
Variable: HOME_OWNED_OR_RENTED

You will find the answer to this question in column 6 opposite the name of the head of each family. The instructions to the enumerator for the entry of this column were as follows:

72. Column 6. Home owned or rented. This question is to be answered only opposite the name of the head of each family and refers to the home in which the family is living at the date of the Census. If the home is owned, write "O"; if the home is rented, write "R." Make no entries in this column for the other members of the family.

If a dwelling is occupied by more than one family it is the home of each of them, and the question should be answered with reference to each family in the dwelling.

The Manual defines owned homes and rented homes as follows:

73. Definition of owned home. A home is to be classed as "owned" if it is owned wholly or in part by the head of the family living in the home or by the wife of the head, or by a son, or a daughter, or other relative living in the same home with the head of the family.

It is not necessary that full payment for the property should have been made or that the family should be the sole owner.

74. Definition of rented home. Every home not owned, either wholly or in part, by the family living in it should be classed as rented, whether rent is actually paid or not.
