

**Canadian Century Research Infrastructure Project**

**DERIVED\_INDIVIDUAL\_ID Variable**

**DERIVED\_INDIVIDUAL\_ID**

Definition: The derived individual id was generated by sorting all the individuals within an extract by the CCRIUID and then assigning a sequential number. Each individual got a derived ID. This was added to give a sequential number that was consistent by CCRIUID location throughout the extract.

Source: INDIVIDUAL\_ID

Codes: None

Remarks: None

**INDIVIDUAL\_ID**

Definition: This number identifies an individual within a census year and university centre.

Source: System generated during Sample Point selection.

Codes: None

Remarks: This was the fifth of the basic keys used to identify individuals in the CCRI Database.
